Adobe Digital Negative Converter is a free tool to convert various RAW files to *.DNG format.
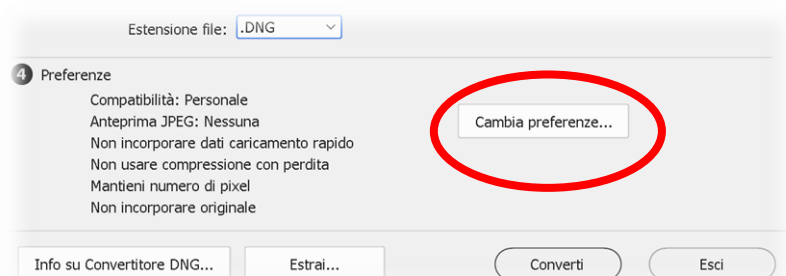

1. Select the folder that contains the RAW files to be converted (1) and the output folder (2).

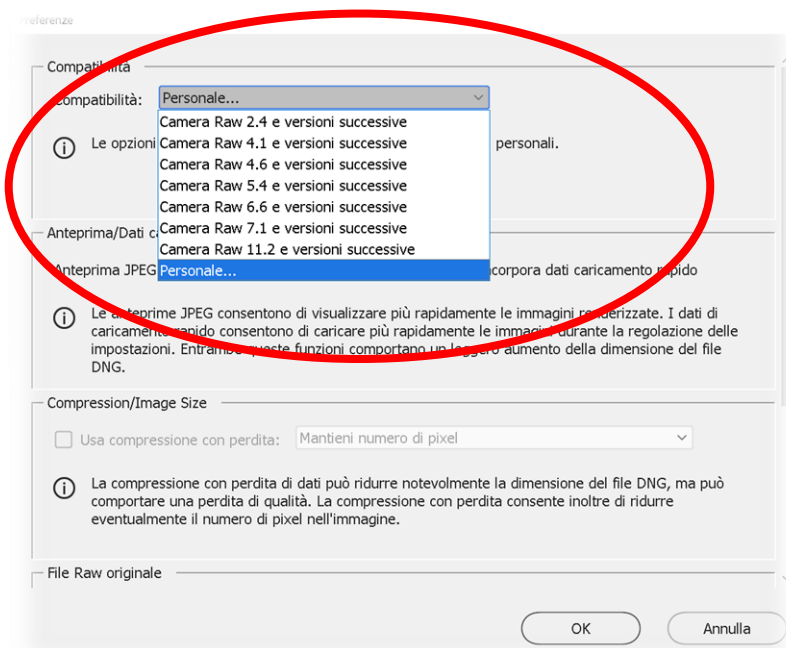

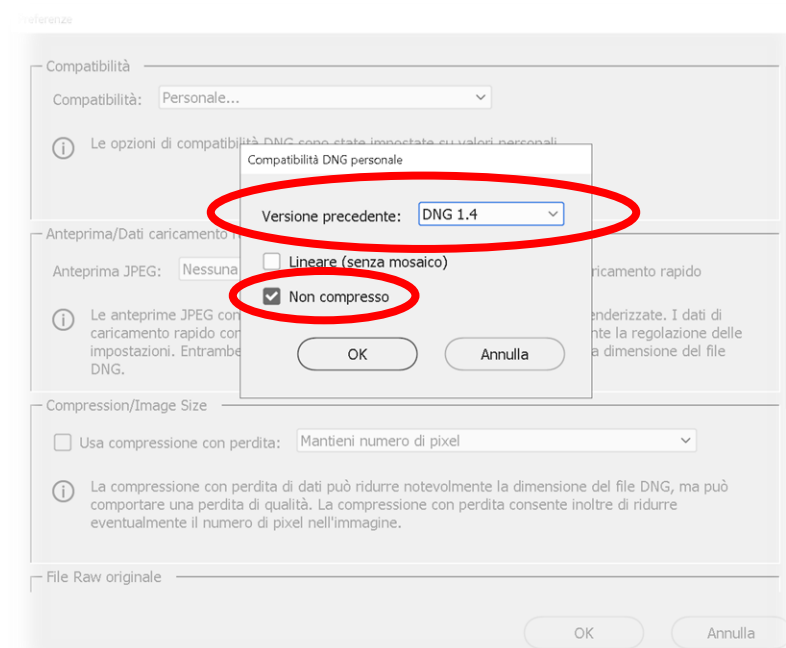

2. Select ".DNG" format (upper case)

3. Change conversion preferences.

4. Select "personal" compatibility.

5. Select "Previous version DNG 1.4" and "not-compressed"

6. Click "Convert" to convert all the RAW images.

7. At the end, close the "conversion status" window.

8. Chiudere e Adobe DNG Converter
